

Duvant Cross

Materials:

2 paint brushes

1 liner for detailing, 1 flat wide

2" w (2 inch wide) Wood disks

1/8" w Black Ribbon, cut to 24"

Black Acrylic Paint

White Acrylic Paint

Pencil

Matt spray fix

Instructions:

1. Paint entire disk with the Black acrylic paint, making sure not to plug the hole with paint. Set aside to dry.
2. Once it is nice and dry take your pencil and outline the Cross and Stars.
3. Using your liner brush fill in the Cross and Stars. Set aside to dry.
4. Once dry spray with matte finish. Set aside to dry, remembering the finish takes a bit longer. Try to avoid the "shiny" sealant, it tends to go tacky in high humidity/heat, and will cause the disks to stick together.
5. Tie the ends of your ribbon together, and slip the opposite end through the hole which should give you a loop. Take the knot slide it through the loop and pull tight.
